PROFESSIONAL SUMMARY

Motivated B.Tech (2nd Year) student at VNIT with strong analytical and problem-solving abilities. Skilled in Python, SQL, Excel, Power BI, and data visualization. Experienced in extracting insights from large datasets, building dashboards, and presenting data-driven recommendations through academic and personal projects.

EDUCATION

Bachelor of Technology (B.Tech) – VNIT
Current Year: 2nd Year

TECHNICAL SKILLS

Programming: Python, SQL
Data Analysis: Pandas, NumPy, Statistics, Data Cleaning, Data Wrangling
Visualization: Power BI, Tableau, Matplotlib, Excel Dashboards
Database: MySQL, PostgreSQL
Other: Problem Solving, Data Interpretation, Business Analysis

PROJECTS

Retail Sales Analytics Dashboard
Analyzed 50,000+ sales records using Python and Power BI. Created interactive dashboards, identified top-performing products, and improved reporting efficiency.

Customer Churn Prediction Analysis
Cleaned and analyzed telecom customer data using Python and SQL. Identified key churn indicators and presented actionable business insights.

E-Commerce Business Intelligence Report
Developed KPI dashboards tracking revenue, customer retention, and product performance. Automated reporting workflows using Excel and SQL.

ACHIEVEMENTS

- Solved 300+ coding and analytical problems.
- Participated in hackathons and data analytics competitions.
- Consistently applied data-driven approaches in academic projects.

SOFT SKILLS

Analytical Thinking, Communication, Leadership, Team Collaboration, Critical Thinking, Time Management, Adaptability, Attention to Detail
