EDUCATION

BCA (Bachelor of Computer Application)

GLA University, Mathura
(2023-2026)
CGPA: 8.71 / 10 (till 4th semester)

Class 12th (UP Board / UPMPS)

(2023)

Percentage: 93%

Class 10th (UP Board / UPMPS)

(2021)

Percentage: 83%

TECHNICAL SKILLS

- **Programming Languages**: Java (OOP & Fundamentals), Python (Core Concepts), C / C++(Familiar with)
- **Frontend Development**: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS
- **Backend Development**: MERN Stack (Actively Learning), Flask (Project Experience)
- **Developer Tools & Platforms**: Git, GitHub, VS Code, NPM, Vercel, Netlify, Render, Jupyter Notebook
- **CS Fundamentals (Foundational Knowledge):** Object-Oriented Programming (OOP), DSA, DBMS, OS, CN, COA

LANGUAGE

- English - Conversational
- Hindi - Native / Fluent

PROFILE

BCA student with a strong interest in web development and building dynamic applications. Learning Full Stack development (MERN stack) and actively creating projects to apply my skills. Seeking internship opportunities to gain real-world experience and contribute to meaningful projects.

PROJECTS

Personal Portfolio Website — 2025

Developed a responsive single-page portfolio website to showcase my profile, skills, and projects. Designed the UI independently using React.js and CSS with smooth scrolling and Framer Motion animations. Integrated a working contact form using React Toastify for alerts and navigation link scrolling for seamless transitions. Deployed the project on Render for public access.

Tech Stack: React.js, HTML, CSS, JavaScript, Framer Motion, React Toastify, Render
Portfolio: **anshika-portfolio-4t6e.onrender.com**

Student Record Management System (SRMS) — 2025

Developed a desktop application to manage student records, courses, and results using Python and SQLite. Redesigned the initial version into an enhanced version with CustomTkinter, implementing input validations, real-time statistics, and a user-friendly dashboard. Packaged as a standalone executable using PyInstaller.

Key Features: Registration & login, CRUD operations for students/courses/results, modern GUI design, and real-time statistics.
Tech Stack: Python, Tkinter, CustomTkinter, SQLite3, PyInstaller
GitHub : View on GitHub
Executable: Download SRMS.exe

ACHIEVEMENTS & CERTIFICATIONS

- Hackathon Participant (Recent): Developed a website as part of a team; received a certificate of participation.
- Academic Excellence: Secured 1st place at district level in 12th grade with 92.8%; awarded certificate and prize money.
- CCC (Course on Computer Concepts) — certified.
- ADCA (Advanced Diploma in Computer Applications) — certified.
